

Anti-Slip Perforated Tiles

The perfect tile for protecting fragile surfaces

Our easy to maintain perforated tiles resist wear and tear

Resistant to shocks and most caustic products, our tiles are ideal for making boundaries for dangerous work zones.

CWF mats are ideal for creating a workspace that's clean, safe and functional. With $\frac{1}{4}$ " hole, they're very easy to clean, as the perforations catch dust, dirt and other particles that are quickly removed with a vacuum.
